

City of Thousand Oaks Commercial Refuse and Recycling Services

Waste Management is the exclusive provider of commercial waste collection and recycling services in Thousand Oaks. Commercial solid waste rates are set annually by City Council. Recycling service is available at discounted rates (see page 4 for details), allowing for cost-effective compliance with State Mandatory Commercial Recycling legislation*. Free solid waste evaluations are also available to businesses interested in reviewing and optimizing their solid waste service.

To order or modify commercial service, or to request a free waste evaluation, contact:

Tom Jacobellis, Waste Management Business Development:

Solid Waste Collection Rates Commercial Service - Exclusive Franchise

Recycling Discount Calculation Methodology

1. Calculate monthly refuse cost based on weekly trash tips.
2. For customers who have recycling service provided by a City franchised hauler, calculate monthly recycling cost based on weekly recycling tips using the refuse rate table before any discounts. For bin recycling service the rate is 30% of the refuse rate so calculated. For cart recycling service the rate is 50% of the refuse rate so calculated.
3. Compare recycling tips with total tips (refuse and recycling) - if percentage of total recycling tips in comparison to total tips is 25% or greater, reduce refuse rate by 10%. If percentage is less than 25%, reduce refuse rate by 5%.
4. Add adjusted refuse cost to recycling cost for monthly rate (lines 2 and 3).

Note:

For questions about commercial rates and recycling discounts, contact:
