

EMERGENCY NOTIFICATION SYSTEM

If we can't **REACH** you... We can't **ALERT** you.

VC Alert is an emergency notification system that may be used to deliver alerts when there is a threat to the health or safety of residents.

In addition to emergency information, you may:

- Select to receive messages regarding crime alerts, road closures, public meetings or other community events.
- Choose the locations you want to be contacted about – your home, your parents' home, your workplace, and your child's school.
- Receive alerts on your home phone, cellular phone, work phone, email, text messaging, facsimile, or instant messaging.

The VC Alert database includes some landline and cellular phone numbers. Please register online to ensure that we have your current contact information.

INTERNET - Go to www.vcalert.org. Registering online enables you to opt-in for community notifications, in addition to alerts and warnings.

If you do not have access to a computer, please register by:
