

MASONRY FIREPLACE OPENING CLEARANCE TO COMBUSTIBLE MATERIALS

2013 California Residential Code Section R1001.11 Exception 4.

Combustible materials shall not be placed within 6 inches of a fireplace opening.

Combustible material within 12 inches of the fireplace opening shall not project more than $\frac{1}{8}$ inch for each 1-inch distance from such an opening.

This handout does not apply to factory-built fireplaces. Factory-built fireplaces shall be installed in accordance with the terms of their listing and the manufacturer's instructions as specified in the Mechanical Code.
