Senior Environmental Programs Inspector

**Purpose of the role:**
Under direction, provides lead supervision to assigned staff; leads, oversees, and participates in the more complex and difficult work of staff responsible for conducting environmental inspection and monitoring activities; performs a variety of technical tasks relative to assigned areas of responsibility; and performs related duties as assigned.

**Distinguishing Characteristics:**
This is the lead level class in the Environmental Programs Inspector series. Positions at this level are distinguished from other classes within the series by the level of responsibility assumed and the complexity of duties assigned including providing lead supervision to assigned staff. Employees perform the most difficult and responsible types of duties assigned to classes within this series. Employees at this level are required to be fully trained in all procedures related to assigned area of responsibility.

**Essential Duties and Responsibilities:**
The following duties are typical for this classification. Incumbents may not perform all of the listed duties and/or may be required to perform additional or different duties from those set forth below to address business needs and changing business practices.

- Leads, plans, trains, and reviews the work of staff responsible for conducting environmental monitoring and compliance activities associated with the implementation of Drinking Water Quality, Industrial Waste Inspection and Stormwater Quality Management; participates in performing the most complex work of the unit.
- Trains assigned employees in their areas of work including environmental program inspection methods, procedures, and techniques.
- Verifies the work of assigned employees for accuracy, proper work methods, techniques, and compliance with applicable standards and specifications; ensures adherence to safe work practices and procedures.
- Performs inspections of City businesses for compliance with federal pretreatment requirements, municipal Industrial Waste regulations, stormwater quality regulations and conducting the monitoring and compliance activities required in the Drinking Water Quality Program.
- Enforces compliance with Municipal Code provisions; initiates remedial compliance action; stipulates corrections and repairs necessary before compliance is made or determined.
- May perform final inspections and ensures completion of necessary corrections; coordinates inspections with other City departments;
performs necessary field tests; confers with City Engineering staff on design problems encountered in the field.

- Understands and applies appropriate traffic control measures and equipment.
- Conducts sampling, monitoring and field analysis activities to ensure compliance with appropriate state and federal requirement or permit conditions.
- Responds to public inquiries in a courteous manner; provides information within the area of assignment; resolves complaints in an efficient and timely manner.
- Estimates time, materials, and equipment required for jobs assigned; requisitions materials as required.
- Performs related duties as required.

The following generally describes the knowledge and ability required to enter the job and/or be learned within a short period of time in order to successfully perform the assigned duties.

**Knowledge of:**
- Operations, services, and activities of a municipal environmental compliance inspection program.
- Principles of lead supervision and training.
- Methods and techniques of conducting inspections in the field at various work sites.
- Mathematical principles including algebra and geometry.
- Technical report writing and preparation of correspondence.
- Occupational hazards and standard safety practices.
- Pertinent federal, state, and local laws, codes, and regulations.

**Desired Minimum Qualifications:**

**Ability to:**
- Lead, organize, and review the work of staff.
- Independently perform the most difficult environmental inspections.
- Understand the organization and operation of the City and of outside agencies as necessary to assume assigned responsibilities.
- Interpret, explain, and enforce department policies and procedures.
- Understand, interpret, explain, and apply applicable federal, state, and local policies, laws, and regulations.
- Utilize standard office equipment including computers and related software applications.
- Prepare clear and concise reports.
- Work independently in the absence of direct supervision.
- Understand and follow oral and written instructions.
- Communicate clearly and concisely, both orally and in writing.
- Establish and maintain effective working relationships with those contacted in the course of work.
- Respond and perform assigned duties in the event of a City-declared emergency.

Competencies:

➢ Effective Communicator
➢ Customer-Focused
➢ Flexible/Adaptable
➢ Accountable
➢ Problem Solver and Decision Maker
➢ Technically Knowledgeable

Any combination of education and experience that would likely provide the required
knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities
would be:

**Education:**  
Equivalent to the completion of the twelfth grade supplemented by college
level course work in chemistry, biology, environmental engineering or a
related field.

**Experience:**  
Four years of responsible inspection experience related to chemical,
bacteriological, and physical analysis of wastewater and/or drinking water
including two years of experience comparable to an Environmental Programs
Inspector II with the City.

**Licenses; Certificates; Special Requirements:**  
A valid Class C California driver’s license is required.

Possession of a California Water Pollution Control Association Grade II (or
higher).

Environmental Compliance Inspector certification.

The conditions herein are representative of those that must be met by an employee to
successfully perform the essential functions of this job. Reasonable accommodations may
be made to enable individuals with disabilities to perform the essential job functions.

**Physical:** Sufficient physical ability to work in an office setting; sit, stand,
walk, reach, twist, turn, kneel, bend, squat, and/or stoop for prolonged
periods of time; perform duties requiring grasping, repetitive hand
movement, and fine coordination; climb ladders, use power and noise
producing tools and equipment; operate office equipment; lift, carry and
push tools, equipment and supplies weighing 25 pounds or more. **Vision:**
See in the normal visual range with or without correction; vision sufficient to
read computer screens and printed documents and to operate office
equipment. **Hearing:** Hear in the normal audio range with or without
correction.

**Environment:** Standard office setting. Employees may occasionally be
required to work outside, with exposure to inclement weather conditions,
elevated noise levels, and heavy vehicle traffic conditions; frequent
interaction with City staff and other organizations; occasionally required to
interact with dissatisfied or quarrelsome individuals.
Class specifications are only intended to present a descriptive summary of the range of duties and responsibilities associated with specified positions. Therefore, specifications may not include all duties performed by individuals within a classification. In addition, specifications are intended to outline the minimum qualifications necessary for entry into the class and do not necessarily convey the final qualifications of incumbents within the position.

Pursuant to California Government Code Section 3100, all public employees are required to serve as disaster service workers subject to such disaster service activities as may be assigned to them by their supervisor or by law.
