## CONSTRUCTION NOTICE

### *Tara Reservoir Improvement Project* *CI 5290*

As a follow up to our original March 10, 2020 notice, the construction work is underway. The rehabilitation of the reservoir includes interior and exterior coating, structural repairs and modifications, and other miscellaneous work.

- Construction work began on March 16, 2020 and is now expected to be completed by end of August 2020.
- All construction work remains within the reservoir property.
- Contractor's access to the construction site is typically from 7:30 a.m. to 5:30 p.m., Monday through Friday for the duration of the project.
- Per our March 10, 2020, we are providing advanced notice of possible Saturday work to remove the existing paint on the outside of the water tank.
- There is a potential for Saturday work on July 11, 2020 between 7:30 a.m. and 5:30 p.m.
- Due to the remoteness of the project site, ambient noise to surrounding homes is expected to be subtle.
- As a reminder, construction trucks will be coming in and out of the reservoir site, residents within the vicinity of the project are advised to observe all safety signs posted at the construction work zone.

Thank you very much for your patience as we work towards improving our Water System.

Please contact Elaine Camia, City Project Manager, at (805) 449-2448, [ecamia@toaks.org](mailto:ecamia@toaks.org) for any questions or comments regarding this project.

**Please see reverse side for construction location.**
