ASPHALT OVERLAY - 69,788sf + 24 sq. ft. of RR in 2 locations				

Remove and replace 2 small areas of cracked and lifted asphalt in front parking lot. (use mini grinder to demo patches)  
 Wedge-grind the existing asphalt surface to a depth of 1 ½" along the concrete gutters as needed to maintain drainage and provide a smooth transition.  
 Grind root boils flush as needed.  
 Clean the asphalt surface and coat with ss1-h tack oil.  
 Install 1 ½" (after compaction) of hot mix asphalt over the prepared surface.  
 Restripe the asphalt surface as per the existing layout using traffic paint.  
 Conditions: The contractor is responsible for any damages on the streets cause by this project as directed by PW inspector. Please contact PW inspector, Keith Lane to schedule for inspections 48hr in advance at (805)368-3344.
