# PERMITS ISSUED REPORT (03/01/2024 TO 03/31/2024)

**Special Conditions:** Survey Monuments - The Applicant shall be fully responsible for the preservation of all survey monuments to the satisfaction of the City Engineer. Prior to the start of construction and disturbance or destruction of any existing survey monument(s), all monuments shall be located and referenced with minimum of four (4) ties by the Applicant's Land Surveyor. A corner record or record of survey shall be filed with and approved by the County Surveyor showing monuments that will be disturbed or destroyed, along with the reference monuments or marks and bearings or azimuth and distances to the location of the monument(s) to be disturbed or destroyed. Documentation shall be provided to the City that the surveying has been completed. Prior to completion of construction, all affected monuments shall be reset by the applicant's Land Surveyor. A corner record or record of survey shall be filed with and approved by the County Surveyor prior to the recording of a certificate of completion for project. Documentation shall be provided to the City that the surveying has been completed. In the event said survey monuments are not found or found and will remain undisturbed, a letter to the City Engineer shall be submitted acknowledging such.
