	Thousand Oaks	6 - Citywide FY 2022-23	N/A	May I suggest a goal of installing protected mobility lanes and protected intersections between neighborhoods and schools that are safe enough to allow most kids to get themselves to school by themselves? I've lived through the horrible car drop off at Lang ranch, Los Cerritos, and Westlake HS. We need to build an alternative. The existing infrastructure, eg painted bike lanes on high speed roads with car centric intersections is nowhere near safe enough. Would the council agree this could greatly improve everyone's quality of life? What are we waiting for?
Denise Benic	Newbury Park	5 - Public Comments (ite	N/A	Hi, I am a 30 year resident of the city, coming here via CLU. I would like you to consider adding transportation to the list of priorities for the city. We need better transportation for our seniors and disabled. We are also seeing a lot more people use ebikes and need a better way to safely move around the city. I would like the city to consider rent control as our area was listed as a top most expensive place to live in the country. As jobs are expanded, please work to make sure it's not just high end jobs, but opportunities for trade jobs as well, including expanding the internship program. I would love if my daughter could afford to live here in 4-5 years, she is about to graduate from NPHS and go to college to get her degree in elementary education. She already knows she can't afford to come back here. Best regards,
