Supplemental Information:

Any agenda related public documents received and distributed to a majority of the City Council after the Agenda Packet is printed are included in Supplemental Packets. Supplemental Packets are produced as needed, typically a minimum of two—one available on the Thursday preceding the City Council meeting and the second on Tuesday at the meeting. The Supplemental Packet is available for public inspection on the City's website at toaks.org/agendas or by contacting the City Clerk Dept at (805) 449-2151 during normal business hours [main location pursuant to the Brown Act, G.C. 54957.5(2)].

Americans with Disabilities Act (ADA):

In compliance with the ADA, if you need special assistance to participate in this meeting or other services in conjunction with this meeting, please contact the City Clerk Department at (805) 449-2151. Assisted listening devices are available at this meeting. Ask City Clerk staff if you desire to use this device. Upon request, the agenda and documents in this agenda packet, can be made available in appropriate alternative formats to persons with a disability. Notification at least 48 hours prior to the meeting or time when services are needed will assist City staff in assuring reasonable arrangements can be made to provide accessibility to the meeting or service.

Julie,

This letter is to inform you that I am absolutely against any rule change to our CC&R's regarding lot splitting. I was surprised to hear that this is an issue and am very distressed that the city is even considering such a drastic change. We all pay a lot of money for our properties and do not want the city to diminish that.

My husband and I will be attending the September 26th meeting with the city of Thousand Oaks regarding this matter.

I have an extensive background in property management, so if I can help in any way, I would be happy to do so.

Sincerely,

Barbara Neuschotz

Name	City	Item #	In favor/ Opposed	Comment
Peggy Jo smith	Newbury Park	6	N/A	Rent increase at Ventu Estates and Ventu Villas. City responsibility to look as all options.
Lori	Thousand Oaks	8B	Opposed	<p>Mostly cloudy skies this evening will become partly cloudy after midnight. Slight chance of a rain shower. Low 59F. Winds NW at 5 to 10 mph. That was the forecast for today we should not be extending services for a drought when we live off the coast. a slight chance of rain is worth the risk soon the mountains will have snow on them and we will still be surfing and fishing from the pier. we are not running out of water we are funding a war and instead adopting more restrictions on something we are surrounded by focus on getting media attention by doing something unique something different la city council members are making headlines for the wrong reasons it is only fair us to distract the negative attention and put council members in the media for bringing the residents together i do not know what the water bill must have been if all the people in our town who never used it three or four times a day were told to stay home and they was noting else for them to do but water the landscaping they never used to or bathed the new puppy they adopted since they had so much more time at home now i sure it was a huge spike in water budgets for every city but you cant expect to watch the residents in this town to be ok with how their tax money is being spent when you warn them on how they use their water. It seems like water restrictions are more of a resource that benefits banks when you restrict our water use you restrict our eco system everyone wants a city council member that cares about things like outlawing people from using rat poison and helping homeless address housing needs but all i want is a council member who grew up in california a council member who can relate to someone like me living in a place where its an hour to snow and an hour to swim not someone who wants to spend money on something that surrounds us so close to home.</p>
