

Important Information Regarding High School Reopening in Thousand Oaks:

Public transit is safe to use and an available option to get to and from school if you have no other means but please note:

Face coverings are mandatory on board and at all stops.

Routes are timed to traditional bell schedules and may not work for special schedules.

Bus route names have changed, new stops added, and some stops have been removed.

Bus capacity is limited. If the bus has reached capacity, you may not board.

We will try and make special school tripper buses available on select routes should they be needed, but these will be limited and not available at all times.
