Dear Jaime,

Hi! I am a TO resident who just went through your Powerpoint for tonight.

I had a couple of questions:

-There is a slide of the City's 2021-22 priorities, but nothing about the goals. How does the proposed budget link to the city goals (I am especially interested in the inclusion goal)?

-I know folks are concerned about the amount of money that goes to policing. I was wondering how the General Plan Update process (specifically the session where policing was discussed) and/or the County's resolution on racism (which contains goals to impact change in the VCSO) have been taken into account when evaluating the services the VCSO provides the City as part of the budget allocation process?

Thanks much,

Lisa Powell

Lisa Powell	Thousand Oaks	9A - Proposed FY 2021-2	N/A	A City's budget reflects its values. As the Council enters into a study session on annual budgets, I am hoping you'll include these questions: How has the City goal of inclusion been taken into account in the development of these budgets? How does the budget support this goal? In regard to policing expenditures, has the County's resolution on racism (which contains goals to impact change in the VCISO) been taken into account when evaluating the services the VCISO provides the City? What changes in local policing can the City influence, given that we do not currently have our own police department? Thank you for your consideration.
